Betreff: COST application

Wien, am 17. Februar 2010

Dear Mr. Depeyrot,

our department and me personally with pleasure take part in the COST application

European monetary unifications, from Antiquity to modern times (EMU).

We will give any possible support to this application and to the project itself.

After the application being accepted we will be happy to contribute to this project, which will improve the international perception and presence of our institute and of Austrian Numismatics in general. For students of our department this will be a wonderful possibility to present their own work in an international context and to get a part of the international scientific community.

We are looking forward to take part in conferences in different European countries and to invite our international colleagues for international meetings in Vienna.

Best regards

A handwritten signature in black ink that reads "Hubert Emmerig".
