Dear Dr. G. Depeyrot,

After I was acquainted with the proposal to participate in the international project „European monetary unifications, from Antiquity to modern times (EMU)“, I assure you, that Regional Museum of History in Varna has possibility and wish to be a partner and will support the project, according to the conditions required.

As a representative of the Regional Museum of History in Varna in the project will be involved Mr. Igor Lazarenko, Curator of Coins- and Seals collections.

The Varna Regional Museum of History appreciate the idea of this project because the population of the lands of contemporary Republic of Bulgaria have always been in contact or part of ancient civilizations that produced various coins in the past. We are sure that EMU will be an excellent opportunity to study and publish at least part of our rich collections.

With best regards,

Sincerely,

Director:
Dr. Valentin Pletnyov
