To COST inviting applications: European Monetary Unification, from Antiquity to Modern Times

In the name of the Hungarian National Museum I am absolutely glad to support the COST-EMU project. Joining the action is namely of great importance for Hungarian historians, who are specialized in monetary history.

Our country is located in the centre of Europe. Due to its position, as a part of various empires and other state-constructions in the historical time, we have been concerned by all the monetary unions from Ancient times till today.

As a participant of the COST-EMU project would be possible to develop a new generation of researchers in history, which needs actually training and contacts with senior researchers in all of Europe.

Budapest, July 29th, 2010

László Csorba
Director General of
Hungarian National Museum
