No. 112/08.02.2010

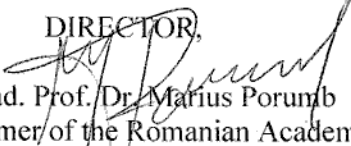

**TO WHOM IT MAY CONCERN,**

The COST project: *“European monetary unifications, from Antiquity to modern times (EMU)”* is considered the top priority of the activity of our institute for this year and the next ones. Apart from being a high class scientific project its benefits will go far beyond the scientific field. If this project will be successful then the Institute will have the chance to gather together a large number of peoples with common interest in science, world heritage and human interrelations.

At the same time, as one of the meetings will be held by the Romanian Academy and the University in the city of Cluj-Napoca, the capital of Transylvania Region, Romania, this will be a huge opportunity for both sides, organizers and attendants, to see the good and efficient ways for future developments of scientific, cultural and social projects.

As it is well-known, the city of Cluj-Napoca has the highest rate of development amongst the urban sites of Easter Europe, that is why hosting such a meeting at such a high scale will involve a large spectrum of fields, from Government to the City Hall.

Therefore, the Institute of Archaeology and Art History of the Romanian Academy, Cluj-Napoca, fully support this COST project!

DIRECTOR,  
  
Acad. Prof. Dr. Marius Porumb  
Member of the Romanian Academy
