

NARODNI MUZEJ SLOVENIJE

Ljubljana, February 15, 2010

Dear Sirs,

The National Museum of Slovenia fully supports the COST application »European monetary unification, from Antiquity to modern times (EMU) «.

We are convinced that the joint research of almost all EU countries comprising the meticulous study of all aspects of coinage ranging from Antiquity to the modern times shall greatly contribute to our understanding of development of monetary economy in Europe. At the same time, however, it will also offer (produce) the material evidence for changing political geography (of political map) in Europe over the centuries. Needless to say, that money alone is always reflecting the political realities and changes in different parts of Europe.

We also believe that the network of institutions involved in the COST application will further reinforce their collaboration and promote the interchange of ideas.

 Director
Dr Peter Kos
