Professor Georges Depeyrot
Archeologies d'Orient et d'Occident,
Ecole Normale Superieur, Paris

TO WHOM IT MAY CONCERN

The Spanish Precious Metal Society (Asociación Española de Metales Preciosos - AEMP) supports and researches the history of money.

Hereby we would like to express our support for the European Monetary Unifications, COST project lead by Professor Georges Depeyrot of the Archeologies d'Orient et d'Occident, Ecole Normale Superieur of Paris.

Professor Juan Castañeda from the UNED in Spain introduced us to this project

We are very interested in all four parts of the project and look forward to read the research that will be produced by the European COST Network.

Kind regards,

Marion Mueller Chueca
Vice-President AEMP
